

Learning at Home Maths

- ★ For this activity you will need up to 20 objects, they could be something like jigsaw pieces, lego bricks or even peanuts.
- ★ Get an adult to lay a number of objects out onto a mat or piece of paper.
How many ... do you estimate are there?
How many ... do they think are there?
- ★ Have a count, who was closest? How far off were you?
- ★ Have a few turns at this. Who was closest the most times?
