# **Great Chart Primary School Pupil premium strategy statement**2024-2027

### **Updated December 2024**

This statement details our school's use of pupil premium funding for the 2024/25 to 2026/27 academic years to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

### **School overview**

Detail	Data
Number of pupils in school	420
Proportion (%) of pupil premium eligible pupils	19%
Academic year/years that our current pupil premium	2024/2025
strategy plan covers (3 year plans are recommended)	2025/2026
	2026/2027
Date this statement was first published	December 2024
Date on which it will be reviewed	December 2025
	December 2026
	December 2027
Statement authorised by	Wendy Pang (HT)
Pupil premium lead	Paula High (DHT)
Governor / Trustee lead	Stuart Fitch/ Jennifer Keen

# **Funding overview**

Detail	Amount
Pupil premium funding allocation this academic year (2024-2025)	£125,398 estimate
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year (2024-2025)	£125,398 estimate

### Part A: Pupil premium strategy plan

#### Statement of intent

Our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of the pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our strategy is also integral to wider school plans for education recovery for pupils whose education has been worst affected, including non-disadvantaged pupils.

Our approach will be responsive to common challenges and individual needs rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

#### Our ultimate objectives are:

- √ To close the attainment gap between disadvantaged and nondisadvantaged pupils.
- √ For all disadvantaged pupils in school to make or exceed nationally expected progress rates.
- √ To support our children's health and wellbeing to enable them to access learning at an appropriate level.

### We aim to do this through

- Ensuring that teaching and learning opportunities meet the needs of all the pupils
- Ensuring that appropriate provision is made for pupils who belong to vulnerable groups, this includes ensuring that the needs of socially disadvantaged pupils are adequately assessed and addressed
- When making provision for socially disadvantaged pupils, we recognise that not all pupils who receive free school meals will be socially disadvantaged

- We also recognise that not all pupils who are socially disadvantaged are registered or qualify for free school meals. We reserve the right to allocate the Pupil Premium funding to support any pupil or groups of pupils the school has legitimately identified as being socially disadvantaged.
- Pupil premium funding will be allocated following a needs analysis
  which will identify priority classes, groups or individuals. Limited
  funding and resources means that not all children receiving free school
  meals will be in receipt of pupil premium interventions at one time.

### **Challenges**

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Poor parental engagement, particularly in supporting Reading at home which is impacting on progress of a high proportion of our disadvantaged children.
2	Closing the attainment gap in Writing at EXS and GDS.
3	Assessments, observations and discussions with pupils indicate underdeveloped oral language and vocabulary gaps, particularly in EYFS/KS1.
	32% of our pupils with SEN are also disadvantaged, with speech, language and communication needs (including pupils with Autism) being the biggest need.
4	Attendance data is lower than 'All pupils' and the National expectations by about 1- 2% on average.

### **Intended outcomes**

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved reading attainment among disadvantaged pupils	Due to a whole school drive to improve Reading and parental engagement in supporting Reading at home, end of KS1 and KS2 reading outcomes in 2026/27 show that all pupils meet the required standard. The only exception to this is where a pupil has a special educational need that impacts significantly on their reading attainment, however evidence shows sustained progress for these pupils.
Improved Writing attainment for	End of KS2 outcomes in 2026/27 show that all pupils meet or exceed the required standard. The only exception to this is where a pupil has a special educational need that impacts

disadvantaged pupils at the end of KS2.	significantly on their attainment in one or more of these subjects, however evidence shows sustained progress for these pupils.
Improved oral language skills and vocabulary amongst disadvantaged pupils	Assessments and observations indicate significantly improved oral language amongst disadvantaged pupils. This is evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment. Summative assessment (e.g. language link) used where appropriate.
To achieve and sustain improved attendance for all pupils in our school, particularly our disadvantaged pupils.	Attendance of disadvantaged pupils is equal to that of all pupils and above national averages.

# Activity in this academic year - 2024-25

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

# **Teaching (for example, CPD, recruitment and retention)**

Activity	Evidence that supports this approach	Challenge number(s) addressed
Additional teacher appointed to work within Year 6 teaching team to allow for smaller class sizes to support the learning needs of this cohort.	EEF(+3) (smaller class size)  EEF +6 (increased feedback)  As the size of a class or teaching group gets smaller it is suggested that the range of approaches a teacher can employ and the amount of attention each student will receive will increase, improving outcomes for pupils. We have analysed the needs of our Year 6 cohorts and have identified that 3 smaller classes of 20 pupils each would allow teachers to increase the amount of attention and feedback each child will receive.	1,2
Continue to improve the quality of social and emotional learning through termly wellbeing days, weekly circle time, RHE sessions, emotion coaching and the	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g. improved academic performance, attitudes, behaviour and relationships with peers):	4

Zones of Regulation as well as introducing The Empowerment Approach (2 year project) to staff, pupils and parents.	EEF (+4)  EEF_Social_and_Emotional_Learning.pdf(educa_tionendownmentfoundation.org.uk	
Embed and refine new approach to a hybrid model of whole class guided reading across the school.	Effective reading systems in place have been shown to improve reading for pleasure, increase comprehension and engagement levels and therefore have a positive impact on progress.	4
Drive to improve writing across the school and particularly stamina for writing with continuation of TalkWrite and the use of Suave words which pupils are encouraged to include in their speech and written work.	EEF T& L toolkit, teacher subject knowledge     Closing the writing gap, Alex Quigley	2,3

# Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Activity	Evidence that supports this approach	Challenge number(s) addressed
Increase speech and language support throughout the school.	EEF (+6) A range of 1:1 and small group interventions carried out which include:	2, 3
HLTA for SALT undertaking the Advanced Practice in Speech, Language & Communication Needs course at Leeds University to upskill further in supporting our pupils including those with EAL who require SALT	AIM dedicated to providing speech and language support in EYFS.  NELI programme run by EYFS TA  HLTA for speech and language support  Pre-teaching of key vocabulary by TAs throughout the school for pupils who need this additional intervention.  HLTA meeting with parents of children where another language is spoken at home to support speech and language needs.	

Additional phonics sessions targeted at disadvantaged pupils who require further phonics support.	Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly from disadvantaged backgrounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions over a period up to 12 weeks.  EEF (+5)	2
---	--	---

# Wider strategies (for example, related to attendance, behaviour, wellbeing)

Total budgeted cost: £125,398

### Part B: Review of the previous academic year (2023-24)

### **Outcomes for disadvantaged pupils**

We have analysed the performance of our school's disadvantaged pupils during the 2023/24 academic year using EYFS and key stage 2 performance data, Year 1 phonics check results and our own internal assessments.

To help us gauge the performance of our disadvantaged pupils we compared our results to those for disadvantaged and non-disadvantaged pupils at a national and school level.

# July 2024 Data for EYFS, Years 1, 2 and 6

Data from tests and assessments suggest that the progress and attainment of the school's disadvantaged pupils in 2023/24 met and sometimes exceeded our expectations in EYFS, Y1 phonics results and Reading and Maths end of KS2 results.

### **EYFS Profile Results 2023-24**

- Good level of development target has been exceeded
- Limited local and national data
- EYFS results are above National and LA
- PP pupils have achieved well

End of Profile Assessment- GLD (Good Level of development)	Target 86%	National	LA
development)			

All pupils (60)	88%	68%	68%
PP	90%		49%

# **Year 1 Phonics Results 2023-24**

- Pupils had to achieve 32+ points to reach the expected standard
- Limited national & local results
- Y1 results above National and LA results
- PP pupils have achieved well

Year 1 Reported results	Phonics	National	LA
Y1	81	78.6	80.2
PP	80		

The PP eligible children who did not pass the screener were those who also have SEND. The majority of these children should, with continued phonics intervention, pass the screener in Y2.

# Year 1 Phonics Results- attainment over time

• PP pupils are achieving well.

Year 1 Reported results	2022	2023	2024
Y1	85%	88%	81%

PP	70%	80%	80%

 PP pupils have achieved well and the gap has narrowed over time between PP and All pupils

### KS1 Results 2023-24

Term 6	R	W M		W		
	EXS+	GDS	EXS+	GDS	EXS+	GDS
Y2	80	22	72	7	73	17
PP	67	7	53	7	53	13
SEN	36	0	0	0	0	0

### KS2 Test Results 2023-24

EXS+ = Pupils meeting or exceeding the Expected Standard GDS = Pupils who are working at Greater Depth

KS2 Results 2023- Attainment	Great Chart Primary School	PP	National
Reading: % of pupils achieving expected standard (EXS)	91%	85%	74%
Reading: % of pupils achieving above the expected standard (GDS)	45%	38%	28%

6% gap at the Expected Standard for Reading and a 7% gap at Greater Depth. However PP results are still higher than National results for All pupils.

Writing: % of pupils achieving expected standard (EXS)	83%	69%	72%
Writing: % of pupils achieving above the expected standard (GDS)	12%	2%	13%

In Writing PP eligible children's results show a 14% gap at EXS and a 10% gap a GDS. These results are lower than National results and therefore writing will be a future focus.

Maths: % of pupils achieving expected standard (EXS)	91%	92%	73%
Maths: % of pupils achieving above the expected standard (GDS)	45%	23%	24%

PP children did very well at the Expected Standard in Maths however there is a 22% gap at Greater Depth, although PP results at GD are in line with National GD results.

Overall, we are pleased with our 2024 results. Many of our disadvantaged children have done incredibly well despite the disruption to schooling they experienced as a result of the pandemic.

There is a clear pattern in our whole school data; where there are higher numbers of pupils who are both PP eligible and have SENDs, the attainment gap is wider and therefore we will continue to monitor these cohorts carefully and provide targeted additional support.

### **Review of the Intended Outcomes for 2023-24**

1. Improved reading attainment among disadvantaged pupils:

This is something we have continued to work hard to improve over the last few years with significant efforts placed on parental engagement and encouraging reading at home as well as school. This is reflected in the KS2 results where reading results are higher than national results and 'All' pupils. We will continue with this drive to improve reading across the school, particularly to improve the gap at Greater Depth that still exists.

# 2. <u>Improved maths, English and science attainment for disadvantaged pupils</u> at the end of KS2:

Our end of KS2 results were strong for our PP eligible children in Reading and Maths; they are better than national results at EXS. However there are still some gaps, mainly in Writing at the expected standard and also in all core subjects at Greater Depth, therefore these will need to be areas of focus going forward.

3. <u>Improved oral language skills and vocabulary amongst disadvantaged</u> pupils:

This was a particularly big focus for the last 2 years with a particular emphasis on pre-teaching of vocabulary for pupils with limited language knowledge and understanding. This has proved to have been a great success in supporting children who struggle to access the curriculum due to lack of understanding of vocabulary, to have greater access to whole class input and ultimately, a better understanding of the content of lessons. The focus on pre-teaching will continue in 2024-25 and beyond.

Speech and Language support (via NHS) was increased to meet the demands of the children and during the course of last year we had the support of up to 5 different therapists working with our children and families.

We continue to identify needs as early as possible so that referrals can be made as early as possible and support provided.

4. <u>To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils:</u>

Challenges in relation to wellbeing and mental health remain significantly higher than before the pandemic. The impact on disadvantaged pupils has been particularly acute and we have seen an increase in referrals to the school nursing service for counselling as this is a service that can be accessed fairly quickly. Our FLO continues to work full time to support our most vulnerable families as well as children who are vulnerable to having mental health issues such as high levels of anxiety. There has been a noticeable increase in the needs of our families over the last few years which has led to a surge in requests for referrals for support e.g. Early Help / Homestart or assessments e.g. for Autism / ADHD.
